	applicant's location. Montross/ Quinley
	After discussion with rich Rudolf about findings, the motion was withdrawn and the project
	continued.
c)	APN 185-142-11-00 and 185-142-13-00; KIVA project 09-0115853; proposal to convert Parcel 1 and 2 (if necessary) to "commercial use for purposes of religious assembly"; access would be via an existing driveway fronting on Valley Center Road (Montross)
	<b>3992-09-040 Pre-application for Major Use Permit,</b> applicant is Horizon Valley Christian Fellowship, 28735 Valley Center road near intersection with Miller Road.
	Presentation by proponent John Luna. The church is across the street from Portino's restaurant. The previous pastor had started the MUP. He is continuing the MUP. It is two parcels but the County looks at it as a single parcel of 12 acres. They are not building anything new but want to bring everything up to code. They are holding church services without a permit. The current septic adequate for 150 people per day according to Dept. of Environmental Health. They needed to identify primary and secondary septic reserves. The building can hold 120 people (max. occupancy). It is currently quiet during the weekdays. There are two driveways now. The V.C. Road project helped with visibility. We need to do a traffic study to determine what else we need to do.
d)	New S09-021 Nelson Way Site Plan, 8354 Nelson Way, medium impact industrial manufacturing (concrete recycling), also addressing code violation issues, Owner: Nelson Way LLC, discussion and possible vote on formation of subcommittee. (Smith)  Valerie – Owner of Las Politos nursery – Understanding is that the owners are trying to sell the
	property. What is a Site Plan and why do they need it?  Rudolf – The Site plan shows where everything is on the property. They are doing this to legalize
	everything on the property.  Jack Fox – First was aware of the property and the business since 2001 when the owner stated that he was planning on putting in an asphalt batch plant. They have had complaints about the dust,
	noise, traffic. They were in violation of noise with DPLU. CHP has been called about the traffic. The Sheriff has been called. They have violations for trailers, buildings, cargo containers, and equipment off property. We need to look into this well.
	Motion: to form a S.C: Bob Davis – Chair, members: Deb Hofler, Jack Fox, Valerie Phillips, Chad Christianson to review the site plan and address the associated issues Passes $13 - 0 - 0$ .
e)	Introduction of and vote on nominees for the VCCPG seat vacated by Susan Simpson, term expired end of 2010. (Britsch):
	Chad Christianson (C)— Moved to V.C. for the rural atmosphere and the quiet. Knows that growth is inevitable but knows that it can be done well. Is in the construction business, concrete business. Jameson Meyst (M) Have lived here all of his life. Felt hopeless about V.C. leaving school. But now feels he can help. Is majoring in archeology. Is very interested in cultural resources.
f)	Role call vote: C – 8 M – 5. Chad Christianson will be recommended to Supervisor Horn Update on Orchard Run Project being approved by DPLU, discussion and possible vote on an
''	appeal to the Planning Commission (Smith).
	Hofler – There are many issues that are a basis for an appeal, they have been stated before. The appeal needs to be filed within 10 days.
	Motion – To file a letter of an appeal within a timely manner, attaching our reasoning from prior meetings and documentations. Rudolf/Hofler Passes: 13 – 0 - 0
g)	Support of Project Wildlife taking over what was previously the CalFire Fire Station at 28741 Cole Grade Road, discussion and possible vote. (Vick). The site is owned by the County and is 5.5 acres with three buildings. Project Wildlife is very interested in the site. They will have educational facilities and rehabilitate animals on the property. They will provide jobs as well. Hofler – This is a great site due to it's proximity to the schools.
	Smith – The Valley Center Fire District is neutral on it. There has been vandalism on the property. The building will need to be brought up to current standards. There is asbestos on site. Due to the size of the property, perhaps it could be shared by several organizations.
	Hofler – This is a nationally recognized organization that could make this a showcase for V.C. Vick – Project Wildlife is actively trying to acquire this property. We should support them. Chad Christianson – The first responders, firefighters, will use whatever property with working
	phones, electricity etcany area that has this will work.  Motion: Chair of the PG write a letter of support for Project Wildlife acquiring the site. Vick/Quinley

	Passes: 13 – 0 – 0						
h)	Discussion and vote on rule clarification about attendance at additional regular meetings. The VCCPG will consider whether to include additional regular meetings with the monthly scheduled regular meets in the total from which member may be absent without forfeiting a seat on the VCCPG. (Smith) The rule now is that if a member misses 5 meetings, they are off of the Board. We are having additional regular meetings that are short notice. Many members do not make these meetings.						
	Robertson – We all know when the regular meetings arebut the additional regular meetings are short notice and many members may not be able to attend.						
	Bachman – If there are many additional meetings, then it could be a lot less than 40% of missed meetings.						
	Rudolf – Recommend referring this item to the rules S.C.						
	Quinley – don't see this as an issue						
	Hofler – According to the roles, even with the additional meetings, no one has missed more that 4.						
i)							
5.	Motion to Adjourn: 10:00 pm						
Maker/Seco	ond: Smith/Quinley	Voice Vote (Y-N-A): 13 - 0 - 0					
Notes:	otes: Motion Carries						
Next Meeting: January 11, 2010 VCCPG Meeting
